

# *Seeing With Eyes of Faith*

*Posted by Dr. Gary H. Cote on March 22, 2006*

The natural eye enables a person to see the natural world around them. But the natural eye cannot see into the spiritual world; it is not equipped to do so. This requires Faith!

Faith is the eyesight to the spirit world of God. The spirit world is understood, known, and discerned by Faith. Without Faith, a person is blind toward God. They seek but cannot find; they grope but cannot grasp. With Faith, understanding begins to form, perception becomes clear, and thoughts conform to truth.

As you proceed through life, call upon God for Faith, exercise your Faith daily, know your Faith will be tested to effect strength and growth, and trust the Word of God in all things!

May the Promise of God's Presence continue to encourage you, and prompt you to live out His purpose for your life!
